Design Minor Stats  
P. Hemmis  
12-9-13  

Note: Laurie Gardner’s assistant went through transcripts of all declared Design Minor students and noted the courses they are using to complete the Design Minor. Stats are based upon 202 students. This is a snapshot of degrees in process.

Based upon this snapshot, current Design Minor students account for 785 seats in CDES courses. However, it must be noted that two courses can double-dip with majors or another minor. Assuming that the 51 CDES majors completing the Design Minor are double-dipping two courses from their major, then, Design Minor students account for 683 additional seats in CDES courses. Assuming an average of three credits per course, this results in an additional 2049 credit hours taken by Design Minor students.

Enrollment on 3-24-14: 210 students to date.
