FULFILLING U OF M LIBERAL EDUCATION REQUIREMENTS

All University of Minnesota Twin Cities degrees require the completion of specific Liberal Education requirements, which can be completed at most community colleges and universities for transfer to the U of M. Minnesota state community colleges also offer the Minnesota Transfer Curriculum (MNTC). If completed and certified on the transcript sent to the U of M for admission, MNTC will be used to meet the core, theme, and first-year writing portion of the University's Liberal Education requirements (you may still need to complete the writing intensive portion of the writing skills requirement). Please note that completing all Liberal Education requirements or the MNTC will not necessarily accelerate your time in a College of Design program, and is not required before applying to transfer to the College of Design.

DEADLINES & SEMESTERS OF ADMISSION

Please note that most College of Design majors require a set sequence of (usually studio) courses only offered at the U of M. Thus, you should apply to transfer to a College of Design major as soon as possible so you can begin enrolling in those sequenced major courses. Consult with a College of Design transfer adviser for more information.

Additionally, while we are thrilled to now admit students to all majors for both fall and spring semesters, we highly encourage students interested in Apparel Design, Interior Design, or Architecture to apply for a fall semester. These majors include a specific sequencing of courses, which begin in the fall; therefore, if a student is admitted to an Apparel Design, Interior Design, or Architecture major in spring, their course sequencing would not begin until the following fall semester.

Students must begin in the College of Design pre-architecture program to complete these courses before applying to a formal architecture degree.

*** Applications will be accepted on a space available basis after the priority deadline.
